also inferred that the shipments went to Jueterbog. After the change of quarters of some of the units in Neustrelitz in late June 1955, the 495th (?)

Arty Regt is believed to be stationed in the Alte Granadier Kaserne. It is of interest that the time for the change in the quartering of troops in Neustrelitz coincided with the beginning of the re-equipping of moxtar regiments

the reported number of 23 x 122-mm field howitzers

25X1

the reported number of 23 x 122-mm field howitzers is too high. It must be assumed therefore that the artillery regiment, in addition to an AT artillery battalion and a field howitzer battalion was additionally assigned a second field howitzer battalion as was already assumed in the fall of 1954. Another possibility is that some of the entrained field howitzers belonged to the mortar regiment of the division. This regiment, however, is stationed in restricted Gerhard Hauptmann Stresse with the 126th Gds RL Bn.
